FURTHER CHANGE OF DIRECTORS AND OFFICERS OF ROYAL ROADS

Royal Roads Corp. (RRO-TSX-V) ("Royal Roads") has announced further change of directors and officers of Royal Roads after the completion of the plan of arrangement with Buchans River Ltd. ("Buchans River") following which Buchans River became a wholly-owned subsidiary of Royal Roads.

Effective August 12, 2008, G. William Felderhof replaced Warren MacLeod as President and Chief Executive Officer of Royal Roads. Mr. Felderhof also serves as a director of Royal Roads, Buchans River and Acadian Mining Corporation (ADA-TSX) ("Acadian") which owns approximately 29% of shares of Royal Roads. Mr. Felderhof is also the President and Chief Executive Officer of Acadian. Mr. MacLeod resigned from the board of directors of Royal Roads effective August 12, 2008.

"We would like to thank Warren MacLeod for his contributions to Royal Roads and Buchans River and wish him every success in his future endeavours," expressed Will Felderhof.

About Royal Roads

Royal Roads is a resource company based in Halifax, Nova Scotia, Canada and is focused on exploring and developing base metal properties in central Newfoundland and Labrador, Canada. Its wholly owned subsidiary, Buchans River, is also based in Halifax, Nova Scotia, Canada and is focused on exploring and developing base metal properties in the famous Buchans mining camp in central Newfoundland and Labrador, Canada. Together, Royal Roads and Buchans River control a total of 33,700 hectares within central Newfoundland and Labrador's Victoria Lake and Buchans mining camps, including the historic Buchans mine (owned by Buchans River) and the Daniels Pond deposit (owned by Royal Roads). Buchans River also controls several exploration properties outside of the Buchans camp, including several under joint venture to Prominex Resource Corp. (PXR – TSX-V) and Playfair Mining Ltd. (PLY – TSX-V), which are being actively explored. Royal Roads is 29.18% controlled by Acadian Mining Corporation, a Halifax based resource company developing gold and base metal properties, including the Scotia Mine (lead and zinc) in Nova Scotia.
